

PROTECTIVE PVC COVER FOR EXERCISE FLOOR

Ideal to extend the lifespan of your floor. The GYMNOVA protective covers become an integral part in Gymnastic Clubs to help combat the spread of COVID-19.

With protective cover

Without cover

This covers the entire exercise floor surface while keeping its intrinsic qualities in terms of **dynamics, reliability and rebound**.

Thus, the protective covers become **an effective solution for the cleaning and disinfection of your exercise floor surface**, while protecting the carpet surface as the use of virucide is not possible.

THE PRODUCT BENEFITS

- ⊕ **Integrated edge with in two colours** identical to GYMNOVA exercise floors in order to keep the visual cue for gymnasts (Ref. 6370 & 6372 only)
- ⊕ **WATERPROOF, use of disinfectant and virucides with EN 14476 norm is possible**
- ⊕ **UV protection**
- ⊕ **Removable**, easy to install and pack away according to your needs.
- ⊕ **Multipurpose**, it prevents the exercise floor from damages from other disciplines (school, baby gym, freestyle...).
- ⊕ **The exercise area is completely flat**, held in place by the hook-and-loop fastening strip system **1** for the roll-up tracks exercise and floor.

For the carpet exercise floors, we recommend to use the tensioning system Ref. 6378 **2**.

Two-coloured protective cover

Easy to install

Reduced overall size

Integrated hook-and-loop fastening strips system
