- ❑ Offers a good shock absorption to the gymnast which allows to reduce wrists and ankles' micro traumas
- ❑ Allows a progressive work of the « Hard » landing (saltos, spin) in total security

TECHNICAL FEATURES

- Dim. = 1260 x 1260 x 20 cm (LxlxTh.)
- Weight = 435 Kg
- Folded overall size: 153 x 120 x 90 cm
- Integrated Hook and loop straps/curved angles
- 16 carrying handles for an easier transport (4 on each side)
- Thanks to edge hook and loop, mats can be assembled to extend training zone
- Floor equipped with two different valves:
 - Black valve: Quick air output to inflate and deflate
 - Grey valve: pressure gauge to adjust the air pressure and connexion
- Certifications:
 - In compliance with the European standard 14-960
 - Manufactured with a double wall structure “Double Wall Fabric” (DWF)
 - In compliance with the REACH standard
- Supplied accessories:
 - 4 inflators
 - 1 Pressure gauge to adjust pressure according to gymnasts’ level
 - 1 trolley (Dim: 120 x 180 cm)
 - 1 transport cover
