COMPETITION FLOOR FOR RHYTHMIC GYMNASTICS - REF. 6667 **"LONDON" - FIG APPROVED**

The GYMNOVA 6667 Rhythmic Gymnastics competition floor has been used at many major events most notably LONDON 2012 Olympic Games. It offers to the gymnast an efficient, dynamic, smooth and even performance area. The RG competition floor provides excellent shock absorption for the ankles and wrists minimising the risk of injury during performance and training.

Installation is quick and simple and the contrasting 13 m performance area is clearly marked allowing for easy orientation during routines.

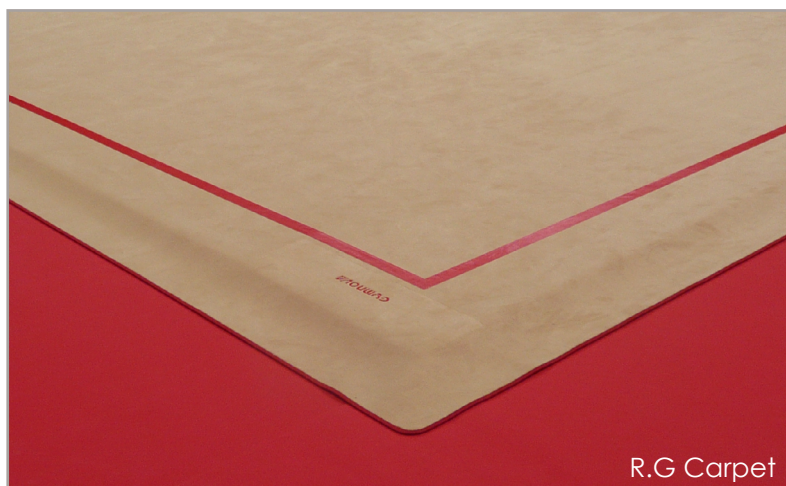

The unique construction of the floor guarantees a completely flat surface for precision and stability during use.

This floor has been used for:

- World Championship, Montpellier (France) - 2011
- Olympic Games, London (UK) - 2012
- World Championship, Kiev (Ukraine) - 2013
- **Olympic Games, Rio (Bresil) - 2016**
