# AEROBIC FLOOR CANCUN

REF.6632

# « CANCÚN » AEROBIC FLOOR

**FIG APPROVED**

Ref. 6632

**THIS HIS EXERCISE FLOOR IS USED IN MAJOR AEROBICS COMPETITIONS:**

- **Word Championships:** 2004, 2006, 2010, 2012, 2014, 2016, 2018, 2022
- **European Championships:** 2009, 2013, 2015, 2017, 2023
- **Asian Championships:** 2012, 2014, 2017
- **Pan-American Championships:** 2012, 2013, 2015, 2016, 2017, 2018, 2021
- **African Championships:** 2014, 2016
- **South American Championships:** 2013, 2015, 2016, 2017, 2018
- **FIG World Cups :** 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2022, 2023

# ADVANTAGES

## DYNAMISM, SAFETY & PROTECTION OF HEALTH

The "Cancún" aerobic exercise floor has been devised to provide a high-performance and homogeneous exercise surface, thanks in particular to the design of the wooden panels. The plywood used increases the flexibility of the exercise floor by providing optimum dynamism.

All elements are configured to guarantee gymnasts' safety and protect their health. The foam mounts underneath the wooden panels provide perfect absorption of impacts. They reduce risks of injury and strain while allowing ideal return of energy.

In combination with the arrangement of the panels, these mounts create a consistent exercise surface. The assembly system gives the exercise floor a smooth surface.

The structure is held securely in place by a cable tensioning system that ensures compact assembly of the entire exercise floor.

Finally, peripheral areas are marked with self-adhesive strips to provide a clear view of the gymnastics area.

## RESISTANCE

The birch wood used for the Cancún exercise floor has been carefully selected to ensure the durability of the equipment. The product's strength results in a longer service life. Selection of the recyclable material of wood also reduces its environmental impact.

## OPTIMISED ASSEMBLY

The limited number of parts to be installed allows easier assembly of the exercise floor. This reduces installation and dismantling times and also results in lower maintenance costs.

## OPTIMISED STORAGE

The arrangement of the foam mounts allows the panels to be easily nested. This reduces the space taken up by the equipment when not in use and therefore optimises storage.

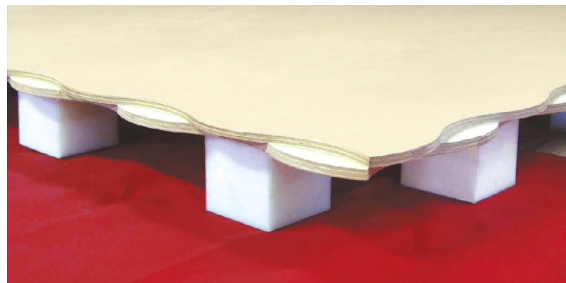

## CUSTOM SIZES

The GYMNOVA design department can offer custom sizes tailored to your available space.

# Technical specifications

- F.I.G.-approved
- Dimensions: 12 x 12 m (LxW)
- Thickness: 7 cm
- Total weight: 1,930 kg
- Peripheral finish with PVC flap
- Marking of peripheral exercise zones (7 x 7 m and 10 x 10 m) with 5 cm wide adhesive strips
- Matt finish in accordance with FIG standards
- Cable tensioning system

## Composition :

- 64 identical nesting wooden panels
- Impact-absorbing foam mounts
- 4 holding straps
- 4 tensioning cables
- 36 peripheral and corner edges

## Pack list

Delivered in 5 packages

Quantity	Description of contents	Ref.	Dimensions (L x w x th)	Weight (kg)
2	32 panels and 18 edges	6632/00	152 x 151 x 172 cm	950
1	Accessories (Corner pieces + Fasteners + Tensioners + Cables + Adhesive)	6630/111	50 x 34 x 26 cm	20
1	Set of 4 finishing flaps	6630/112	60 x 40 x 22 cm	5
1	set of 4 complete straps	6632/40	40 x 30 x 23 cm	4

# Additional accessories

## **ADDITIONAL SAFETY MAT - Ref. 7011**

This additional safety mat provides extra comfort in training sessions and helps to reduce anxiety when learning new movements.

**Dimensions:** 200 x 140 x 10 cm (L x W x Th)

## **ACROTRAMP LONG TRAMPOLINE - Ref. 5360**

This particularly effective training tool encourages a highly technical acrobatics learning process.

**Dimensions:** 6.70 x 2.20 m (LxW)

## **FREESTANDING MUSCLE-TRAINING BENCH - Ref. 2261**

The adjustable incline of this bench makes it possible to adapt the intensity of the exercise. It is designed for strengthening exercises.

## TRAINING SPRINGBOARD - Ref. 2190

This training springboard is an ideal partner to learn the basics of popular aerobic jumps.

**Dimensions:** 120 x 60 cm (LxW) - Weight: 24 kg

Fitted with transport wheels, non-slip pads, coil springs, comfort layer and carpet.

## CRUSHED CHALK - Ref. 2872, 2873, 2874

Its fine and porous texture ensures optimum coverage and excellent adhesion on the hands for effective grip in both training and competitions. Its formula absorbs perspiration for high-quality sequences without slipping.

- Ref. 2872 - Set of 6 bags of 1 kg
- Ref. 2873 - 5 kg bucket
- Ref. 2874 - 20 kg refill bag
