

New product

QUICK AND EASY INSTALLATION
OPTIMIZED STORAGE
DISTANCE ADJUSTMENT
STABILITY
LOW HEIGHT

Training Parallel Bars

Stable and secure due to the low height (H = 49 cm), these new parallel bars are for working and progressing with complete confidence. Gymnasts can execute many repetitions of required movements as part of their daily training program.

A valuable learning tool, these bars are great for practicing handstands and for muscle strengthening. The distance between handrails is adjustable (up to 55 cm) to accommodate gymnast size and level of difficulty of exercises.

The handrails are made of wood for optimal user comfort.

The unit is quick and easy to set up and ideal for integration into a teaching circuit.

LOW PARALLEL BARS - REF. 3993

After training, the bars can be folded laterally and placed against a wall for storage.
Dimensions folded - 230 x 49 x 23 cm (LxHxD).

Wood handrails similar to our standard parallel bars.
Length = 170 cm.

Dimensions unfolded = 170 x 100 x 49 cm (LxHxD).
Weight = 33 Kg.
